

SAN DIEGO MEETS SOUTH KOREAN INNOVATION 2024

“Igniting Innovations in Urban Sustainability & Safety”

MARCH 26-27, 2024 SAN DIEGO, CA, USA

Join us for an exclusive event featuring the forefront of Korean technology and innovation, designed to foster partnerships with U.S. companies looking to enhance urban infrastructure, energy efficiency, and public safety.

COMPANY PROFILES OF THE KOREAN PARTICIPANTS:

COMPANY PROFILES

ENITT CO. LTD. - PIONEERING AI-DRIVEN SAFETY SOLUTIONS

"ENITT is a company specializing in AI disaster safety solutions using optical fiber acoustic distribution sensing technology."

ENITT specializes in AI-based disaster safety and energy efficiency solutions, using cutting-edge technologies. Since 2018, ENITT has been at the helm of creating safer environments through innovative products like their safety monitoring systems and distributed optical sensor technology. Recognized for their excellence in technology and innovation, ENITT is the perfect partner for companies aiming to implement groundbreaking safety solutions.

IOLITE - SHAPING THE FUTURE OF SMART CITIES

"IoLite transforms urban living with its Smart Streetlight Auto Dimming Control System, reducing energy usage by over 30% and enhancing safety with edge computing and deep learning technology."

IoLite is redefining urban infrastructure with its Smart Streetlight Auto Dimming Control System that uses edge computing and deep learning to reduce energy consumption by over 30%. Their system not only provides significant energy savings but also enhances urban safety and efficiency, setting new standards for smart city development. IoLite's dedication to IoT advancements and sustainable solutions makes them an ideal partner for U.S. cities and businesses.

TRONIX - LEADING SMART PUBLIC LIGHTING INNOVATIONS

"TRONIX delivers an energy-efficient Smart Public Lighting Control System that enhances urban infrastructure with real-time, integrated management and user-friendly interfaces."

TRONIX brings to the table an energy-efficient Smart Public Lighting Control System that integrates lighting management with environmental data collection, offering up to 30% energy savings. Their user-friendly interface and emphasis on IoT standards make TRONIX's solutions pivotal for smart urban management and advanced infrastructure projects in America.

LALA TALE - CRAFTING INTERACTIVE DIGITAL EXPERIENCES

"LALA TALE leverages AI technology to offer a comprehensive mental health care application, providing personalized wellness programs and professional counseling to enhance emotional well-being globally."

LALA TALE, a trailblazer from South Korea, harnesses AI to revolutionize mental health care. Their app conducts in-depth analyses using AI in voice, text, and behavior to offer personalized mental wellness programs, including meditation, sound therapy, and professional counseling. Designed for those seeking to improve their emotional well-being, LALA TALE's solution stands out for its use of technology to recommend non-pharmacological therapies validated by medical research. For U.S. business partners, LALA TALE offers a unique opportunity to join forces in making advanced, accessible mental health care a reality, promoting a healthier, more mindful society.

ORGANIZATIONS INVOLVED IN THE EVENT:

KAPID (Korea Association for Photonics Industry Development)

Established on March 30, 2000, the Korea Association for Photonics Industry Development (KAPID) aims to advance South Korea's photonics industry by promoting business expansion and innovation. As a government-endorsed body, KAPID focuses on fostering industry collaborations, supporting photonics marketing, spearheading joint research, and enhancing international cooperation. KAPID's efforts are pivotal in positioning South Korea among the world's leading photonics hubs. **www.kapid.org**
